

ROAD CONSTRUCTION

LA PAZ, PACIFIC HILLS & ARBOLITOS

Santa Margarita Water District continues to expand its recycled water infrastructure to save drinking water.

The District will install recycled water pipelines within the streets near your home beginning in August of 2018, with construction happening in the following streets:

- Arbolitos from Lucero towards La Paz Road
- La Paz Road, Arbolitos to Pacific Hills Drive
- Pacific Hills Drive, La Paz to Alato

Construction is estimated to take five months, starting in August and occurring mostly on weekdays between 9 a.m. and 3 p.m., except for approximately one week of night work. We do not anticipate any disruption in water or wastewater services to you or your neighbors.

The District is targeting a completion date prior to the winter months, when outdoor watering demands are lower, to allow the District to increase its storage of recycled water and make it available for the high demand summer months.

The District is working closely with the City of Mission Viejo to ensure all impacts to the City and residents are minimized.

INFORMATIONAL COMMUNITY MEETING

August 7, 2018

7 – 8 p.m.

Norman P. Murray Community Center
24932 Veterans Way, Mission Viejo, CA 92692

Please join the Santa Margarita Water District to learn more about the upcoming construction in your neighborhood. The informational community meeting will be held on August 7, 2018 from 7-8 p.m. at the Norman P. Murray Community Center in Mission Viejo. Key staff will provide a project overview and answer your questions. We hope that you're able to join us.

Meet the Team and Learn About the Project:

- **Key components of the recycled water project**
- **Phases of the project**
- **Project impacts and benefits to the community**
- **How the District will continue to keep you informed**
