Subject: Wagon Wheel Sports Park

Please do not make any changes to the sports teams lease of your facilities. I was a board member of Newport Harbor Little League for years, and coached Little League teams there for 6 years. I am therefor not against the Little League programs. I am an original owner of a home on Panorama adjacent to your property being used by sports teams. I can clearly hear the crack of the bat and the cheering voices of fans, kids and coaches now. I find this distracting but tolerable as I think the program is wholesome and valuable to all participants. Adding sound amplification or lights would be a great negative. Clearly changing the lease terms now is not appropriate, and could cause an unfavorable impact on our property values (for which you may be potentially responsible). Let us be good neighbors and respect each others rights by continuing to honor and enforce the current lease with no changes. That is the best way to avoid future conflict. I appreciate your consideration of this situation. - [REDACTED]
