Subject: Exception to Lease/ Wagon Wheel Sports Park

Dear Ms Crosthwaite,

This is to advise of my opposition the the loudspeakers proposed by the Trabuco Canyon Little League. This facility is directly adjacent to our quiet residential street. There is currently enough noise produced by the activity of this organization that I feel the addition of speakers is over the top.

Secondly, I do not have confidence that this is the end to TCLL's encroachment on our peaceful environment, as they have historically been trying to do things like this over the past 13 years that I have lived in the area, sometimes doing it without approvals. If you would like more information from me on this manner please feel free to ask.
